CSS3		jquery	MsWord, Excel,PowerPoint
SCSS/SASS		Bootstrap	
Node.js		Tailwind	
TypeScript			
Wordpress			

## Professional Experience

**Zakir Soft**

**2020 – 2021**

**Front End Web Developer**

My main job was to actually lead a new project and explain it to my team members. If any member had a problem, I would explain it to him and if I could, I would complete it. I made sure the codes were standard and reusable, and I encouraged my team members to do the same. As a team leader, I always noticed that they were up-to-date with technology, so I took their special weekly classes. Moreover, if there was a big project, I would work as a part of them.

- Lead Front End Team of 3 Developers & trained them
- Build 6+ projects for our valuable clients
- Developed various starter package with builder tools
- As an instructor, I take on the responsibility of training in the Learning Code project and lead the entire program from the front.

Fiverr  
Front End Web Developer ( part-time )

2019 – present

My main responsibility was to keep the client satisfied by overcoming the various challenges of each project. Understanding what the client wants from me, making the client the right service head, communicating with the client in the right way and working with them for a long time was one of my goals.
